Title: A tongue-print image database for recognition

Publication Date: 2007

Document Type: Conference Paper (PA)

Treatment: Practical (P)

Descriptors: image recognition; image texture; visual databases

Identifiers: tongue-print image database; geometric shape information; physiological texture

information; identity verification; 3D tongue image database

Class Codes: B6135E (Image recognition); C5260B (Computer vision and image processing techniques); C6160S (Spatial and pictorial databases)

Title: Visual images and information literacy

Publication Date: Fall 2005

Document Type: Journal Paper (JP)

Treatment: Practical (P)

Descriptors: cataloguing; digital libraries; information science education; library automation;

visual databases

Identifiers: visual images; information literacy; print image; image database; digital image; image cataloging; metadata

Class Codes: C7210L (Library automation); C6160S (Spatial and pictorial databases); C7240 (Information analysis and indexing); C7260 (Information science education)

Title: Finding United States historical images in print and online

Publication Date: Fall 2005

Document Type: Journal Paper (JP)

Treatment: Practical (P)

Descriptors: cataloguing; document image processing; history; image retrieval; Internet; search engines; visual databases

Identifiers: United States historical images; virtual museum; online collection; digital collection; American history; search engine; image database; subscription service; local online catalog; print index; visual material; Webliography

Class Codes: C7250R (Information retrieval techniques); C7210N (Information networks); C7250N (Search engines); C7240 (Information analysis and indexing); C7820 (Humanities computing); C6130D (Document processing techniques); C6160S (Spatial and pictorial databases)

Title: Document image retrieval based on density distribution feature and key block feature

Publication Date: 2005

Document Type: Conference Paper (PA)

Treatment: Practical (P); Experimental (X)

Descriptors: document image processing; image retrieval; visual databases

Identifier: document image retrieval; density distribution feature; key block feature; document image processing systems; document image database

Class Codes: C7250R (Information retrieval techniques); C5260B (Computer vision and image processing techniques); C6130D (Document processing techniques); C6160S (Spatial and pictorial databases)

Title: Wavelet versus DCT - based spread spectrum watermarking of image databases

Publication Date: 2004

Document Type: Conference Paper (PA); Journal Paper (JP)

Treatment: Practical (P); Experimental (X)

Descriptors: discrete cosine transforms; visual databases; watermarking; wavelet transforms
 Identifiers: wavelet transform; DCT; discrete cosine transform; spread spectrum watermarking;
 image databases; robust watermarking; colour still image database protection; watermark
 transparency; false alarm probability; watermark obnoxiousness; multiple bit recovering;
 biorthogonal transform

Class Codes: B6135C (Image and video coding); B0290X (Integral transforms in numerical
 analysis); C5260B (Computer vision and image processing techniques); C6160S (Spatial and
 pictorial databases); C6130S (Data security); C4188 (Integral transforms in numerical analysis)

Title: Automated processing of shoeprint images based on the Fourier transform for use in
 forensic science

Publication Date: March 2005

Document Type: Journal Paper (JP)

Treatment: Practical (P); Theoretical (T)

Descriptors: footwear; Fourier transforms; image matching; police data processing; sorting;
 visual databases

Identifiers: shoeprint image processing; automated processing; Fourier transform; forensic
 science; image sorting; image database; outsole pattern; reference shoeprint image; human
 observers; translational invariance; rotational invariance; spatial positioning; partial print
 matching

Class Codes: B6135 (Optical, image and video signal processing); B0230 (Integral transforms);
 C5260B (Computer vision and image processing techniques); C6160S (Spatial and pictorial
 databases); C1130 (Integral transforms); C7130 (Public administration)

Title: Design of a full text image Chinese CD-ROM database retrieval system in a campus
 digital library

Publication Date: 2002

Document Type: Journal Paper (JP)

Treatment: Practical (P)

Descriptors: academic libraries; CD-ROMs; data structures; digital libraries; document image
 processing; full-text databases; image retrieval; visual databases

Identifiers: full text retrieval system; image retrieval; image database; Chinese CD-ROM ;
 campus digital library; hash function; data structure; image document processing

Class Codes: C7210L (Library automation); C6160S (Spatial and pictorial databases); C7250R
 (Information retrieval techniques); C7110 (Educational administration); C6120 (File
 organisation); D2080 (Information services and database systems in IT)

Title: Designing a virtual gallery of contemporary jewellery: the realities of the virtual
Publication Date: 2001
Document Type: Journal Paper (JP)
Treatment: Practical (P)
Descriptors: art; CD-ROMs; exhibitions; humanities; visual databases
Identifiers: virtual gallery; contemporary jewellery gallery; CD-ROM; exhibitions; museums;
academic print publication; image database
Class Codes: C7820 (Humanities computing); C6160S (Spatial and pictorial databases)

Title: A general-purpose Japanese optical character recognition system
Publication Date: 1996
Availability: University of Nevada, Las Vegas, 4505 Maryland Parkway, Box 454021, Las Vegas, Nevada 89154-4021, USA
Document Type: Conference Paper (PA)
Treatment: Practical (P)
Descriptors: character sets; document image processing; image classification; image recognition; optical character recognition; visual databases
Identifiers: general-purpose Japanese optical character recognition system; Cherry Blossom; general-purpose Japanese document recognition system; scanned Japanese document images; automatic preprocessing; image contents; text region lifting; text lines; ranked classifier decision list; Japanese character image database; system training; labeled character images; machine-print Japanese document database; machine-print Japanese character database

Title: Optimal keys for image database indexing
Publication Date: 1997
Document Type: Conference Paper (PA)
Treatment: Applications (A); Theoretical (T)
Descriptors: image colour analysis; image matching; indexing; query processing; visual databases
Identifiers: optimal keys; image database indexing; efficient indexing; large image databases; texture classification method; template matching; benchmarking; Leiden WWW color image database; 19th century portrait database; corrupted images; print-scanner noise; general image degradation
Class Codes: B6140C (Optical information, image and video signal processing); C6160S (Spatial and pictorial databases); C4250 (Database theory); C1250 (Pattern recognition); C5260B (Computer vision and image processing techniques)

Title: Solving the physical access dilemma

Publication Date: March 1992

Document Type: Journal Paper (JP)

Treatment: Practical (P)

Descriptors: CD-ROMs; document image processing; information retrieval systems; information services; local area networks; network servers

Identifiers: physical access dilemma; UMI; periodical image database; Business Periodicals

Ondisc; article facsimiles; single workstation; photos; charts; tables; graphs; CD-ROMs; space requirements; hardware; full function product; high-capacity CD-ROM jukebox; storage requirements; security; network server; multiple users; document delivery; Image Print Server; IPS; search workstations; article printing; local area network; LAN

Class Codes: B6210L (Computer communications); C5320K (Optical storage); C5630 (Networking equipment); C5620L (Local area networks); C5260B (Computer vision and picture processing); C7210 (Information services and centres)

Title: A shoe-image database system queried by visual language

Publication Date: 1990

Document Type: Journal Paper (JP)

Treatment: Practical (P)

Descriptors: computerised picture processing; microcomputer applications; relational databases

Identifiers: shoe-print sample analysis; shoe-image database system; microcomputer-based dedicated relational image database system; Pascal language; I/O module; image pre-processing module; image editing module; image storage management module; visual query language

design

Class Codes: C6160D (Relational DBMS)
